VITORIA-GASTEIZ
EUROPEAN GREEN CAPITAL
In fact, it is the first Spanish city that was awarded the GEP certification, which guarantees the competitiveness of its businesses and industrial areas and which also won the Green Flag Environmental Award in 2010.

In addition, the Green Belt of Vitoria-Gasteiz, consisting of seven parks surrounding the city and a total of 47 kilometres of pedestrian and cycle paths (in addition to the other 43 kilometres in the city), gives it natural surroundings of high ecological value where you can stroll, ride a bike, go bird watching and enjoying nature a few minutes from the centre of Vitoria.

The development of a series of innovative and committed actions in this field as eco-neighbourhoods, the ambitious mobility plan, measures to improve the air quality control of industrial emissions, reduce noise pollution and an entire political awareness of the use of materials used in offices, furniture, etc., have contributed to the making of this green city.

Vitoria-Gasteiz is a fashionable city that is authentic, friendly, green, sustainable, modern, medieval and charming.

The green city that is evidenced by the European Green Capital award 2012, obtained thanks to its environmental policy and the commitment and involvement of citizens who are proud of their city. Also, it is in the process of obtaining the Biosphere Responsible Tourism Destination as the top destination in Euskadi.

Vitoria-Gasteiz is internationally recognized for its biodiversity and inclusion of green spaces in the urban fabric.

In this sense, there is easy access to the parks from the heart of the city either on foot, by bicycle, city bus or car.
In 2000, the Green Belt was selected by the UN as among the 100 best global performances at the III International Good Practice Competition for to improve living conditions in cities. Good practices that have been maintained and applied to other areas also during its green "reign".

These practices, and their commitment to the future, make it an ideal city for hosting sustainable conference events. A sustainable event in a city and surroundings immersed in an environmental culture.

- "Cumbres de Guadarrama" International Prize awarded in the category of "architecture or sustainable urban growth" by the Interior Green Belt Project. 2014.
- European Green Capital 2012.
- Reina Sofía City Accessibility Award (2012).
- Green Flag Environmental Award 2010.
- A Green Belt, selected by the UN from among the 100 best global performances at the III International Good Practice Competition.
- The first Spanish city to obtain GEP (Green Enterprise Parks) certification.
- A committed sustainable tourism destination, in the process of certification as a Biosphere Responsible Tourism Destination as the top destination in Euskadi.
Vitoria-Gasteiz Vitoria is the capital of Euskadi, which gives it a dynamism and projection at national and international level and a significant presence in political life.

A successful municipal policy has helped it to keep its balance by combining urbanism, the environment (it was European Green Capital 2012), and social initiatives with first-rate services and a network of sociocultural, civic and sports centres that unite civic life.

The city is the setting for the passing of time. It is Gothic and Renaissance, Baroque, Neo-Classical, Romantic and avant-garde. In particular, its old quarter is one of the most beautiful and best preserved in Euskadi and northern Spain. It was declared a Monumental Site in 1997 and received the Europa Nostra Award 2010 for the ‘Recovery of Vitoria’s forgotten walls’ project. Today it opens up a new era in modern buildings and neighbourhoods, with many garden and pedestrian areas, civic centres and leisure, sports and business facilities.

The atmosphere in the streets, their careful planning, the ease of internal movement, the magnificent surroundings and the approachable character of its inhabitants make it an attractive and safe city with a high quality of life. As well as being renowned for its gastronomy, as it was declared Spanish Capital of Gastronomy in 2014.

- FADCity and Landscape Award 2015 for improving accessibility to the Old Quarter of Vitoria Gasteiz.
- World Heritage Site award granted by UNESCO to the Santa María Cathedral as a monumental milestone framed within the Northern Camino de Santiago. 2015.
- "Cumbres de Guadarrama" International Prize awarded in the category of "architecture or sustainable urban growth" by the Interior Green Belt Project. 2014.
- European Green Capital 2012.
- The Old Quarter was declared a Monumental Site in 1997.

An attractive city with a high quality of life thanks to the atmosphere in the streets, careful planning, ease of internal movement, the Green Belt and the approachable character of its inhabitants.
A capital of services and an operating centre for business and meetings, the strategic location and complete infrastructure of Vitoria-Gasteiz make this city the ideal place for holding events, conferences and meetings...

Vitoria-Gasteiz has worked in conference activity since 1986 and from its beginnings has maintained a firm commitment to quality and infrastructures aimed at the professional sector.

“The Europa Conference Centre, modern and functional, and the Villa Suso Palace, a beautiful Renaissance palace located in a medieval setting, are the city’s two conference spaces. Various locations can be added to these for events and meetings.”
A functional, innovative, comfortable, spacious and bright building. An icon of sustainable architecture, its transformation follows the Passivhaus Standard that promotes high energy efficiency buildings.
Europa Conference Centre, opened in 1989, the year of the fall of the Berlin Wall, and remodelled eco-architecturally in 2015, is the king of Euskadi conference centres and an icon of sustainable architecture.

Strategically located in the city’s most important thoroughfare, the Avenida de Gasteiz, it allows a seamless connection to outside the city and at the same time is located close to the Old Quarter.

The property and building management is local.

GREEN ON THE OUTSIDE.

VERTICAL GARDEN

The vertical garden covering its facade is a pioneer in the reproduction of native ecosystems. 1492 m² of greenery with over 33,000 different varieties of plants from Alava and the Basque Country, which improve insulation by 75%, resulting in energy savings.

The large windows are covered by deciduous vines that allow sunlight to enter in winter and protect it from the summer heat.
GREEN ON THE INSIDE.
THE ‘PASSIVHAUS’ CONCEPT*

The profound renewal of its interior architecture, an example of good practice, is based on a careful and innovative upgrade of its facilities, an environmental commitment that goes one step further and a clear sign of identity in the field of conference hosting. Its model of thermal, acoustic and landscape conditioning with its garden façade (vertical garden) makes it a reference point in sustainable building material.

The new Europa Conference Centre is a spacious, adaptable and abundant setting with natural light from its skylights and viewpoints. The Europa offers a fully-equipped, modern, versatile and comfortable interior. This icon of sustainable and eco-efficient architecture has solar panels, biomass fuel, control systems for CO2 levels, temperature and humidity to provide spaces with maximum comfort.

Its transformation is based on the Passivhaus standard whose purpose is to promote buildings of very high energy efficiency in Spain (buildings with almost zero energy consumption) by publicising the standard.

*Passivhaus bases its constructions on five features: high thermal insulation, infiltration control, high efficiency carpentry, design by specialist (PHPP software) and ventilation. In addition, it uses solar energy for better climate conditioning and to reduce energy consumption.

Europa Conference Centre is both part of and the emblem of the inner Green Belt, where the city works and where Vitoria-Gasteiz aims to be structured around the rehabilitation and renovation of buildings, water management, design and management of the urban “green” spaces, the renewal of public space and mobility in the city.

CASA DEL CORDÓN

Located in the heart of the Old Quarter, this monumental house of the fifteenth century owes its name to the Franciscan stone cord around one of the entrance archways.

Its interior conceals a polychrome starry vault, which covers the noble room of the tower and remains intact until today. This is one of the few civil buildings that remains.

The Jewish merchant, Juan Sánchez de Bilbao, had it built and it was the temporary residence of illustrious figures such as Philip the Handsome and his wife, Joanna the Mad.

In addition, the building witnessed some of the great events of history. Adriano of Utrecht, for example, received the news of his election as Pope Adriano VI in this house.

This is an example of careful restoration work that retains the curious combination of stately and commercial house which enables it to hold small gatherings and meetings in a very unique space.

Nature is just a few minutes away from the centre to the more historical side in the Old Quarter with a visit Santa Maria Cathedral. A source of inspiration for great writers like Ken Follett or Paulo Coelho, it was declared a World Heritage Site in 2015 in the context of the Interior Northern Camino de Santiago.

To conclude, another key feature of Vitoria: food and drink, with a cooking show and workshop where you will end up tasting all the dishes.
OLD QUARTER:
THE ALMOND,
THE CATHEDRAL
AND THE WALL

Our Old Quarter is almond shaped and has many styles. Gothic in its beautiful churches, Renaissance in its palaces, baroque facades, and even neoclassical in Arquillos de Olaguibel. It is also modern, with brightly coloured murals that adorn some of its facades. There you can visit the Santa Maria Cathedral, declared a World Heritage site in 2015 in the context of the Interior Northern Camino de Santiago and the Wall, winner of the Europa Nostra Award for the recovery of cultural heritage in 2010, and which protected the hill of the old city. Walk the streets and get lost in its vibrant shops, pintxo bars, restaurants and businesses which reflect a new Old Quarter.

BE BASQUE

The rhythmic and musical clash of sticks with wooden planks in the txalaparta, the improvised verses sung in Basque by the bertsolaris or singers, the harmonic steps of Basque dances or the passion of the Basque against the court. Experience our Basque culture in first person with scheduled workshops.
SOCIAL PROGRAMMES / INCENTIVES

MUSIC IN THE JAZZ CAPITAL

A Jazz capital since 1976 when the first Festival was held. Each edition musters the most prestigious musicians in July.

Now you can enjoy a small concert on stage at the Principal Theatre where Jazz XXI Century is held, get started with any of the instruments and feel the jazz beating in the city.

ABRACADABRA

To the sound of Abracadara, the brain disbelieves what our eyes see: how is that possible? Learn one of the most suggestive magic tricks and be surprised with a small-group magic session.

If your visit is in September and coincides with the International Magialdia Magic Festival hosted by the city, enjoy it in every square and shop window.

¡BAILA SWING!

You love it when you see it and think you can't do it. Now you can try. Get a real swing dance class at group level and enjoy the music and dancing.

In June, Gastroswing is held in the city, so you can put into practice what you have learned in different concerts and workshops.
BIRDING WATCHING BIRDS

Imagine connecting with Nature through birds.

Watch them guided by an expert in wetlands within the city, the Ullibarri-Gamboa reservoir or the valleys and mountains looking towards the Mediterranean. You have the option to visit them on foot or by bicycle.

THE GREEN BELT: ON FOOT, BY BIKE OR TOURIST TRICYCLE

Walking, feeling the wind in your face whilst riding a bike or enjoying the scenery by taking a tourist tricycle with driver are three options to discover the Green Belt of Vitoria-Gasteiz.

Where Nature blends urban spaces and is the reason for this being the European Green Capital with the top position in Europe where consolidated green areas area are concerned.

A stop on the way is Ataria, the Salburua Wetlands Interpretation Centre. Visit it and do not forget to observe the wetlands from the top of the suspended viewpoint.
WALKING & RUNNING THROUGH THE GREEN CITY

Staying at the European Green Capital means you can go walking or running and find yourself surrounded by parks and natural areas.

Throughout the city there are planned urban greenways ideal for putting on your shoes and going out to enjoy walking or running. An initiative coordinated with hotels, which allows programmed routes with directions and times between 30 and 60 minutes to begin at establishments in Vitoria-Gasteiz.

The athlete Martin Fiz, winner of the Prince of Asturias Award for Sports in 1997, runs regularly in the El Prado park with the Spanish marathon team: go running with him and the other runners.
BASKETBALL IN ONE OF THE BEST HALLS IN EUROPE

Enjoy the magic of basketball in one of the best halls in Europe, with its capacity for 15,000 spectators.

Attend the amazing spectacle of a match at Buesa Arena in pitch-side seats next to your favourite players. You can also visit the VIP lounge where you can enjoy delicious catering.

TOUCH THE SKY

Up and away in a hot air balloon soaring through the city and region.

A unique experience in which you will touch the sky and get a different perspective on Vitoria and places as special as the Izki area, Rioja Alavesa, etc.

This experience is subject to weather conditions.
The Camino de Santiago crosses the city from east to southwest and you can see it on the golden shells that appear on the street pavements.

Guided by the Álava Association of the Camino de Santiago, you will feel like a pilgrim following the footprints towards Santiago and discovering the rewards of the route through Vitoria, especially in the Old Quarter.

The hostel for visitors and pilgrims at the foot Santa Maria Cathedral, declared a World Heritage Site in 2015, in the context of the Interior Northern Camino de Santiago, allows you to share experiences with other travellers.

THE HOME OF CHANCELLOR AYALA

Delve into the home of Chancellor Ayala, forerunner of the Renaissance, poet, chronicler of four kings, diplomat, warrior and royal adviser.

Visit the monumental site of Quejana with the Tower-Chapel of Virgen of Cabello, the Church of San Juan Bautista and the XIV-century fortified built by Chancellor Ayala, now a museum of sacred art.

SALT WORKER FOR A DAY IN THE AÑANA SALT VALLEY

Through its programme of guided tours, the Añana Salt Valley (Saliñas de Añana, Álava) allows you to discover this outdoor monument with thousands of years of history, and has received the Europa Nostra Award 2015. You will discover the restoration work of this cultural landscape in the midst of a rehabilitation process and the different types of salt and artisan production.

Chefs Aduriz, Atxa, Berasategui and Subijana, amongst others, extol its high gastronomic value and have their own salt beds in the valley.

Inside one of the salt production beds and roller in hand, you will feel like a real salt farmer. Also, afterwards you can enjoy the salt spa, which recalls the baths of the salt farmers in salt brine, or take part in a tasting to appreciate the different qualities and tastes of salt stalagmites, sea salt and salt with arbequina oil.
Vitoria-Gasteiz is sheltered by natural parks of Valderejo, Gorbeia and Izki.

In the latter you can play golf on an 18-hole course designed by Severiano Ballesteros, with its wide fairways surrounded by oaks and holly.

Humid woods, endless plains, rural landscapes, Romanesque buildings such as the Armentia Basilica (from the twelfth century), the Sanctuary of Our Lady of Estibaliz, Gaceo and Alaiza, the old quarter of Salvatierra... The shell of Santiago will accompany you on your journey.
POST-CONFERENCE

Vitoria is 45 minutes from Bilbao and just over an hour from Donostia-San Sebastián.

A diverse, attractive and welcoming city. In addition to the Guggenheim Museum, its streets are home to the Museum of Fine Arts, the Euskalduna Palace, the Maritime Museum, the Arriaga Theatre, the Museum of Sacred Art, the Plaza Nueva, the Basque Museum, the Bizkaia Bridge or Hanging Bridge of Portugalete (declared a World Heritage Site) and the Old Quarter, to enjoy Bilbao’s cuisine.

Bilbao has also become a leading centre for select shops and businesses. A culturally active city, with events that occur throughout the year, such as the BBK Live Festival or the Bilbao International Documentary and Short Film Festival.

Gipuzkoa’s capital tastes of pintxos and world famous haute cuisine, breathes cinema and culture (European Capital of Culture 2016) and opens to the sea on pristine beaches like La Concha. A place that has given birth to artists like Paco Rabanne or Chillida, and in whose creations beats the character of Donostia-San Sebastián.

In the cultural arena, home to the San Telmo Museum, the Eureka Zientzia Museoa or the Cristobal Balenciaga Museum in the nearby Getaria.

To this can be added events that have already become genuine classics, such as the San Sebastián International Film Festival or Jazzaldia.
